

## BIOMEDICAL ENGINEERING DEPARTMENT

### Products Brochure

#### BIOMEDICAL WORKSHOPS

We are conducting BioHos\*18 workshop for biomedical students to make them familiar with biomedical equipments & biomedical engineer's activities in hospitals. This workshop is intended for all Diploma, BSc, MSc, B.E, B.tech still studying students. This workshop will also be very helpful for those who have just finished studies/already joined as a new biomedical engineer.

#### BIOMEDICAL SERVICES

For hospitals, we are able to give AMC for your equipments with free inventory list. This will cover all break down services, preventive maintenances and calibrations. We can also offer consultancy services for equipment purchases, setting up a department in hospitals etc.

#### BIOMEDICAL HOSPITAL VISIT

We are also providing a chance to visit all the major departments and biomedical equipments in a hospital. 1 day Hospital Visit is available now so that any student can apply. This will be much useful for students who have just started their Biomedical studies as it will make them familiar with equipments and all major departments and activities even before they study about those in syllabus.

#### BIOMEDICAL TRAININGS

We are very happy to inform you that we also offer an opportunity to do biomedical training in hospital for those who have completed/ still continuing their studies. Any Graduates/Diploma in Biomedical/Electronics, ITI in electronics can apply. Various training modules are available such as Basic (1 week), Hands-on( 2weeks), Internship(1 month), Expertise( 6 months) and Fellowship( 1 year). A certificate will be awarded to all those who completes the courses successfully.
